h bi- there are some additional doc breakdowns that had to happen. when complete, i have tasked grb to do a draft denial log- which i will pass to you and barbara nann for finalization when the draft is completed. also, i have asked saic to prepare a public cd so that you can do a partial release.

not sure what's going on with the link. i can look at it on friday from your desk.

but i can send you the file, too. you'll just need to rename it so it doesn't get confused with the sever version.
